

Government of **Western Australia**
 Department of **Mines and Petroleum**
 Resources Safety

Notice to export explosives or security risk substances (SRS) from Western Australia

Dangerous Goods Safety Act 2004
Dangerous Goods Safety (Explosives) Regulations 2007
Dangerous Goods Safety (Security Risk Substances) Regulations 2007

ABN: 69 410 335 356

Requirements for this notice

- This notice is to be used for exports of explosives or SRS.
- Separate notices are to be lodged if explosives and SRS are included in the same shipment.
- The person exporting the explosives or SRS must hold a current explosives or SRS import/export licence.
- This notice must be lodged by the licence holder with Resources Safety at least 7 days prior to the date of expected departure.
- The licence holder must provide with this notice a Material Safety Data Sheet for all of the explosives or SRS detailed in the notice.
- A certificate of analysis (signed by the licence holder) must be provided (SRS only, if required by the Chief Officer [r. 19]).

Relevant international requirements

For the purposes of these regulations 'relevant international requirements' means:

- for explosives transported by water - the latest edition of the International Maritime Dangerous Goods Code published by the International Maritime Organisation; and
- for explosives transported by air – the latest edition of the Dangerous Goods Regulations published by the International Air Transport Association.

Retention action for notices

- Licence holders must retain records of all exported explosives for 2 years after the date of the export.
- Licence holders must retain copies of all SRS export notices for 5 years after the date of export.
