ANIMAL DISEASES (EMERGENCY OUTBREAKS) ACT 1991

Erratum

THE notice published in the *New South Wales Government Gazette* No. 127 of 16 December 2011, relating to Section 29 Notice, 2nd Further Extension of Importation Order Pigeons (No. 2), was gazetted incorrectly.

The correct notice relating to Section 29 Notice, 2nd Further Extension of Importation Order Pigeons (No. 2) was published in the *New South Wales Government Gazette* No. 126 of 14 December 2011, this date will remain as the date of gazettal.

COAL MINE HEALTH AND SAFETY REGULATION 2006

Notice under Clauses 149 and 152 Specifying Polymer
Injection etc. as Licensable and Contents of Licence
Applications

I, ROBERT REGAN, Chief Inspector, pursuant to Clauses 149 (1) (e) and 152 (1) (b) of the Coal Mine Health and Safety Regulation 2006 (the Regulation), by this notice:

- (a) Revoke the notice titled "Notice under Clauses 149 and 152 specifying polymer injection etc as licensable and contents of licence applications" published in *New South Wales Government Gazette* No. 41 of 19 March 2009, at pages 1289-1290, and
- (b) Specify that:
 - i. the injection or application of polymeric material for the purpose of ventilation or strata control is a licensable activity; and
 - ii. an application for a licence under Part 5 of the Regulation for that activity must contain:
 - the information and particulars specified in the Schedule below; and
 - any other information and particulars required by any applicable form that may be published from time to time on the website of NSW Trade and Investment.

Note: Licences for this activity may be granted for trial and/or ongoing use application.

In this notice, *polymeric material* means any material (including its constituent components) that is polymerised underground, but excludes polyester resin capsules for strata support and any other material that the Chief Inspector may from time to time determine and notify in the *New South Wales Government Gazette*.

Dated this 19th day of December 2011.

ROBERT REGAN,
Chief Inspector,
Department of Trade and Investment,
Regional Infrastructure and Services

SCHEDULE

1. Definitions

In this Schedule:

equipment means equipment that an applicant for a licence under Part 5 of the Regulation proposes to use in the injection or application of polymeric material as referred to in paragraph (a) of this notice.

German permit means the permit, approval or authorisation (however described) issued by the District Government Arnsberg, Department of Mining and Energy, North Rhine-Westphalia, Federal Republic of Germany demonstrating suitability and covering requirements for safe use of the relevant polymer material in German underground coal mines.

2. Information and particulars on the polymeric material

2.1 Use and nature of polymeric material

Particulars of the nature of the polymeric material and details of its intended uses.

Evidence of the suitability of the polymeric material for its intended uses, including (but not limited to) adhesion properties, strength and flexibility.

2.2 Certification of polymeric material

2.2.1 Subject to Clause 2.2.3, a copy of the complete German permit (that is, of the original in German), including all conditions, signed by the relevant Arnsberg authority, and a certified English translation of all that documentation.

2.2.2 The test report for the relevant polymeric material from the Mine Safety Technology Centre (MSTC), Thornton NSW stating the material has passed all applicable tests in Mine Safety Test Method TM 003.

2.2.3 The German permit requirement under Clause 2.2.1 may be waived, if the applicant provides alternative test reports acceptable to the Chief Inspector.

3. Information on the equipment

A detailed description of the equipment, including schematics, photographs and engineering general arrangement drawings.

4. Risk assessment of equipment and injection or application process

4.1 The report of a risk assessment (that complies with Clause 4.2) conducted on the equipment and the injection or application process.

4.2 The risk assessment must:

- be conducted by a professional independent third party provider;
- include a team member who is an occupational hygienist or chemist with knowledge of the product and component hazards, and other team members acceptable to the Chief Inspector;
- consider any requirements of the German permit where applicable; and

- be in accordance with MDG 1010 – Risk Management Handbook for the Mining Industry, and MDG1014 Guide to Reviewing a Risk Assessment of Mine Equipment and Operators.

5. Information on the licence applicant's operations

5.1 Applicants must provide evidence they have:

- competent people who remain competent by frequently injecting or applying the polymeric material;
- safe work methods for injection or application of the polymeric material that comply with the findings of the risk assessment and conditions of the German permit;
- a documented risk management system that is consistent with AN/NZS ISO 31000:2009 Risk Management – Principles and Guidelines or a health and safety management system consistent with Australian/New Zealand Standard AS/NZS 4804:2001 Occupational health and safety management systems – General guidelines on principles, systems and supporting techniques.
- a quality system that is certified under AS/NZS ISO 9001 for the applicant's operations, with scope to include, as appropriate, the injection or application of polymeric material for ventilation or strata control in the mine;
- conducted a surface trial of the polymeric material and the relevant system; and

Note: The Chief Inspector or the Chief Inspector's representative must be given at least one week's notice before such trials are undertaken.

- 5.2 For materials that are applied directly from pre-packaged syringes or pressurised containers less than 40 kg total weight, the applicant is not required to have a quality system certified to AS/NZS ISO 9001 or to conduct a surface trial as required in 5.1. The applicant may only obtain material from a supplier who has a quality system that is certified under AS/NZS ISO 9001.

MINING ACT 1992

Instrument of Appointment of Inspector

I, BRAD MULLARD, Executive Director Mineral Resources, Department of Trade and Investment, Regional Infrastructure and Services, pursuant to section 361 of the Mining Act 1992, appoint Gavin Dale Hoskins as an inspector for the purpose of that Act.

Dated this 21st day of December, 2011.

BRAD MULLARD,
Executive Director Mineral Resources
Department of Trade and Investment
Regional Infrastructure and Services
(Under delegation)

MINE HEALTH AND SAFETY ACT 2004

Instrument of Appointment

I, BRAD MULLARD, Executive Director Mineral Resources, Department of Trade and Investment, Regional Infrastructure and Services, pursuant to section 127 (1) (c) of the Mine Health and Safety Act 2004, hereby appoint John George LEAN as a Mine Safety Officer.

Dated this 20th day of December 2011.

BRAD MULLARD,
Executive Director,
Mineral Resources,
Department of Trade and Investment,
Regional Infrastructure and Services
(in exercise of the Minister's function under
section 127 (1) (c) of the Act, delegated with
authority to sub-delegate to the Director-General
under section 182, and sub-delegated
under section 184 (2))

MINE HEALTH AND SAFETY ACT 2004

Instrument of Appointment

I, BRAD MULLARD, Executive Director Mineral Resources, Department of Trade and Investment, Regional Infrastructure and Services, pursuant to section 127 (1) (c) of the Mine Health and Safety Act 2004, hereby appoint Gavin Dale Hoskins as a Mine Safety Officer.

Dated this 21st day of December, 2011.

BRAD MULLARD,
Executive Director Mineral Resources
Department of Trade and Investment,
Regional Infrastructure and Services
(in exercise of the Minister's function under
section 127 (1) (c) of the Act,
delegated with authority to sub-delegate to the
Director-General under section 182,
and sub-delegated under section 184 (2))

MINERAL RESOURCES

NOTICE is given that the following applications have been received:

EXPLORATION LICENCE APPLICATIONS

(T11-0381)

No. 4456, MOBILAPTY LTD (ACN 002 069 258), area of 84 units, for Group 1, dated 16 December 2011. (Orange Mining Division).

(T11-0382)

No. 4457, STBARBARALIMITED (ACN 009 165 066), area of 10 units, for Group 1, dated 20 December 2011. (Orange Mining Division).

MINING LEASE APPLICATION

(11-6538)

No. 416, DONALDSON COALPTY LTD (ACN 073 088 945) and NEWCASTLE COALCOMPANY PTY LTD (ACN 074 900 208), area of about 1085.1 hectares, to mine for coal, dated 12 December 2011. (Singleton Mining Division).

CHRIS HARTCHER, M.P.,
Minister for Resources and Energy
