Exhibited Animals Application

Receipt No.

## HOW WILL YOUR APPLICATION BE ASSESSED?

Approval to construct an animal display establishment cannot be issued unless the Director-General of the Department of Trade and Investment, Regional Infrastructure and Services is satisfied that the animal display establishment will conform to and be conducted in accordance with the prescribed standards.

**You should ensure that you understand all applicable legislation and standards. The names of prescribed standards are listed in the *Exhibited Animal Protection Regulation 2010*.**

You can download the *Exhibited Animals Protection Act 1986* and the *Exhibited Animals Protection Regulation 2010* from the NSW Legislation Website at:

## WHAT FORMS DO YOU NEED TO SUBMIT?

1. A fully completed "*Form B: Application for Approval to Exhibit Animals at Mobile Establishments*". It must be accompanied by a \$230 lodgement fee and any documents referred to in Form B.
2. A fully completed "*Form G: Application for Approval to Construct or Alter an Animal Display Enclosure or Facility*" for each proposed home base enclosure, display enclosure, transport enclosure and vehicle to be used in the mobile display. Each Form G must be accompanied by a \$46 lodgement fee and any documents referred to in the Form G.
3. A fully completed "*Form D: Application for a Permit to Exhibit a Prescribed Species*" for each prescribed species you have listed in your answer to Question 12 in Form B. Only some species are prescribed species and they are listed in Schedule 2 of the *Exhibited Animals Protection Regulation 2010* (See "Permits for Certain Animals" below.) **A separate Form D must be submitted for each prescribed species** and each Form D must be accompanied by a \$23 lodgement fee and any documents referred to in the Form D.

## THE ASSESSMENT PROCESS

### APPLICATION FORMS SUBMITTED WITHOUT FEES OR DOCUMENTS

Your application forms will first be reviewed by a departmental assessor to ensure the forms are accompanied by:

- a) the relevant fee(s); and
- b) any documents referred to in the forms.

It is a requirement of the *Exhibited Animals Protection Regulation 2010* that an application be accompanied by any documents referred to in the approved form and by the relevant fee(s).

***Any application form that is not accompanied by the relevant fee(s) and supporting documents referred to in this form will be returned without further assessment.***

**Note that inquiries may be undertaken by staff of the Department of Primary Industries to verify information supplied within this application. It is an offence to provide false or misleading information.**

### OPPORTUNITY TO SUBMIT FURTHER INFORMATION AND CLARIFY

An application form that is accompanied by the relevant fees and documents will be reviewed by an assessor who will notify the applicant of any missing or unclear information and give the applicant 4 weeks (28 days) to submit the missing information and to clarify unclear information.

### DECISION

Once the 4 week period has passed the Director-General of Industry & Investment NSW, or his delegate, will either: a) decide to approve or refuse the application; or b) request advice from the Exhibited Animals Advisory Committee before making such a decision.

### HOW LONG DOES IT TAKE?

The Department of Primary Industries attempts to make a final decision within 6 weeks of receiving an application to construct an animal display establishment. You should, however, submit your application well before you propose to commence construction as assessment may take longer, especially if the Department requires advice from the Exhibited Animals Advisory Committee. The Committee only meets once every three months.

## LEASE AGREEMENTS

If you do not own the premises which will be used as the home base premises for the mobile establishment then you must ensure that you have a written lease agreement with the owner giving you the legal rights to:

- a) use the premises as the home base premises for the mobile establishment;
- b) invite any other person on to the premises including any inspectors appointed under legislation; and
- c) do anything on those premises which may be required under the *Exhibited Animals Protection Act 1986* and Regulation in relation to your use of the premises. For example, this could include any alterations required to ensure that fence enclosures or animal enclosures are satisfactory. The Department of Primary Industries is unable to provide legal advice to you on the terms of your lease agreements, and you should obtain your own legal advice if you have any concerns.

## WHAT HAPPENS IF YOUR APPLICATIONS ARE APPROVED?

- You are permitted, subject to the conditions of your approval, to construct the home base, transport and display facilities proposed in your application.
- On completion of construction, contact the Leader, Exhibited Animals on 02 6391 3716 to arrange an inspection of the completed facilities.
- Following a satisfactory inspection, you will be required to pay the relevant issue fee (\$285 for

- a Minor Exhibitor, otherwise \$1035) and confirm that satisfactory insurance has been obtained.
- A Minor Exhibitor means a person who exhibits or is going to exhibit no more than 30 animals.
- On receipt of your issue fee the Department of Primary Industries will issue your Approval.
- You can only acquire an animal for exhibition if:
  - the appropriate Approval has been issued; and
  - you do not hold the same species under an Animal Keepers Licence issued by the Office of Environment and Heritage under the *National Parks and Wildlife Act 1974*.

## WHAT HAPPENS IF AN APPLICATION IS REFUSED?

- You will be advised in writing of the grounds for refusal.
- Your lodgement fees are non-refundable.
- You are eligible to reapply or to appeal to the Administrative Decisions Tribunal within a prescribed period.

## GROUNDINGS FOR REFUSAL

Grounds for refusal of an application may include:

- The information provided indicates that the applicant does not have appropriate qualifications and/or experience to exhibit animals in accordance with the prescribed standards.
- Insufficient information has been provided to satisfy the Department of Primary Industries that the applicant has appropriate qualifications and/or experience to exhibit animals in accordance with the prescribed standards.
- The applicant is not a fit and proper person to hold a an Approval due to the applicant:
  - providing false or misleading information.
  - having prior offences under the relevant legislation (See Question 6).
- Failure of the applicant to withdraw the application within two weeks of the Department of Primary Industries receiving advice that the applicant is no longer willing or able to exhibit animals at mobile establishments.

## PERMITS FOR CERTAIN ANIMALS

A Permit is required before certain species of animals may be exhibited. A list of these prescribed species can be found in Schedule 2 of the *Exhibited Animals Protection Regulation 2010*.

Exhibitors of these species must meet particular standards because of the special nature of these prescribed species. These animals are special because they meet one or more of the following descriptions:

- 1) Species that require specialist care and/or which pose a threat to keeper or public safety.
- 2) Species that are subject to studbooks or cooperative conservation programs conducted under the auspices of the Australasian Species Management Program of the Zoo and Aquarium Association.

You should review the list of species that you have provided under Question 13 to see if any of these are permit species. As stated above, for each permit species, you will need to submit a completed *Form D: Application for a Permit to Exhibit a Prescribed Species*.

## POSSESSION OF ANIMALS UNDER BOTH THE *EXHIBITED ANIMALS PROTECTION ACT 1986* AND *NATIONALS PARKS AND WILDLIFE ACT 1974*.

The Department of Primary Industries and the Office of Environment and Heritage (OEH) have a policy prohibiting exhibitors under the *Exhibited Animals Protection Act 1986* holding the **same species** simultaneously under an Animal Keeper's Licence issued under the *National Parks and Wildlife Act 1974*. This is required to avoid confusion in determining which individual animals are covered by which licence.

A person who holds a species under an OEH Animal Keeper's Licence may not exhibit that species. To gain approval to exhibit that species the person must hold a relevant exhibitor's authority (issued by the Department of Primary Industries) and have obtained the approval of the Department of Primary Industries to transfer all specimens of that species to the exhibitor's authority. For example, if you have three blue tongue lizards on a OEH Animal Keeper's Licence and wish to exhibit one of them under your Department of Primary Industries animal display licence, you must first transfer all three blue tongues to the Department of Primary Industries approval.

Please note that both the Department of Primary Industries, and if required the Office of Environment and Heritage, will include a condition on your authorities that precludes any species being held under both authorities simultaneously. Any future changes to your collection will need to be in accordance with this condition.

**If you need further information or assistance with completing the application form please contact the Animal Welfare Unit on (02) 6391 3276.**
