

# ANIMAL MANAGEMENT KENNEL LICENCES

Under the *Dog Control Act 2000* and the Glenorchy City Council Dog Management Policy 2009 dog owners are required to adhere to the rulings associated to the keeping of dogs. One such requirement is the number or amount of dogs a person can keep at any one time at a property. Presently these are the rulings associated with the keeping of multiple dogs in our municipality.

## Regular pet dogs

- 1 - 2 domestic dogs – no kennel licence required
- 3 - 5 domestic dogs – will require a KL1 category licence
- 5 or more domestic dogs – will require a KL2 category licence

## These licences are targeted specifically at Racing Greyhounds

- 1 – 2 Greyhounds – No kennel licence required
- Up to 5 Greyhounds – will require a KLG1 category licence
- 5 or more Greyhounds – will require a KLG2 category licence

### \* please note \*

- A kennel licence from any category will not be granted for any properties less than a total of 400 square metres in land size.
- KL2 and KLG2 licences will not be permitted in a Residential Zone of the Glenorchy Planning scheme

There are application and annual renewal fees required for each of these licence types.

To apply for a kennel licence the forms are available from Council or on our website.

Should you have questions or require further assistance associated with kennel licences please contact us.
